

Dear Parent/Guardian,

Our school is using DreamBox Maths to help your child become more capable and confident at maths.

DreamBox Maths is an online maths programme that enhances students' maths skills – improving their academic outcomes and preparing children for future success. Through regular practice on the programme, your child will receive personalised instruction to develop conceptual understanding, build critical skills and improve achievement.

Your child can complete DreamBox Maths assignments outside of school on a computer with Internet access. Assignments in each component can be completed in any order. The programme will keep track of assignments completed each week as well as your child's progress towards the overall lesson goals.

Weekly assignments reset every Monday at 12:00 a.m. Encourage your child to do additional work in DreamBox Maths if they complete the weekly assignments.

To access DreamBox Maths on a browser:

Your child can access DreamBox Maths from any computer, laptop or Chromebook - 24 hours a day, 7 days a week. All you need is a high-speed Internet connection.

To access the programme at home, you will need to:

- Use the link provided by your child's school.
- Use the username and password provided by your child's school.
- If your student uses a picture password, you will need to enter a Classroom Code provided by the school.

Create your DreamBox Maths account to review your child's academic progress at home

Follow these steps to create your free account:

- Have your child log in to their profile just as they would at school.
- Click Setup Parent Access at the bottom of the page.
- Follow the instructions provided to create a new login and password.

Log in to your home account after setup:

- Go to <https://play.dreambox.com>
- Enter the email address and password you used to set up your account.
- To see your child's progress, click the 'Family Dashboard' button.

If you have any questions, please contact your child's teacher.
