The Standards report on DreamBox Maths
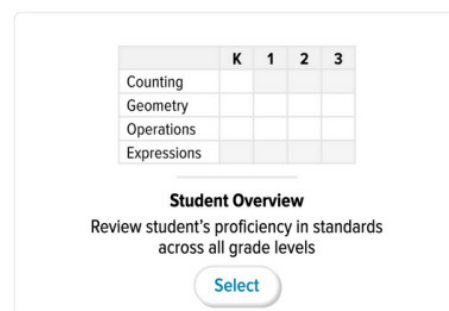

The Standards report shares student proficiency data broken down by standard, giving a detailed view into how students are progressing skill by skill in DreamBox Maths.

To view the Class Standards report, navigate to the Reports page of the DreamBox Insights Dashboard. Select the classroom name from the dropdown filter and select the Standards report.

Student Overview
Review student's proficiency in standards across all grade levels

Select

Click on a standard to sort student proficiency by that standard.

Note: The standards will reflect the academic standards chosen in your settings.

Use the year level toggle to view standards at other year levels.

Change to Group view to group students by domain or standard.

Click on a student's name to see their individual standards report.

Shortcut to the 'Add Assignment' page for the selected skill.

A white circle shows that the student has not yet started this skill in the programme.

A green circle shows that the student has been marked proficient with this skill in the programme.

A blue half-circle shows that the student is in progress with this skill in the programme. Hover over the half circle to view the proficiency percentage.
