

The Student Overview report on DreamBox Maths

Help guide

The Student Overview report provides a visual of how students are progressing in DreamBox Maths, communicating cumulative growth and proficiency across all domains and Lesson Groups.

To view the Student Overview report, navigate to the Reports page of the DreamBox Insight Dashboard. Select the student's name from the dropdown filter and select the Student Overview report.

-  Area represented with white shows content that is available in DreamBox Maths. If an area is greyed out, there are no Lesson Groups or standards available at that year level for that domain.
-  Area represented with light green shows content that the student has been placed out of, either from their Initial Placement Level, or from completing lessons that determine this prerequisite skill complete.
-  Area represented with dark green shows proficiency earned from completing lessons related a Lesson Group or standard. Click on the area to view proficiency details.
-  Area represented with dark green and arrows represents proficiency earned during a particular timeframe. Use the dropdown filter at the top of the report to view growth over a different timeframe.
