READING PLUS

Real-Time Assignments Activity

Use the Real-Time Assignments Activity screen to get a real-time view of what your students are working on now in Reading Plus, along with what they have accomplished in the current week or in a previous week. View information connected to current assignment activity, most recent login, comprehension scores on Reading lessons, time spent in the programme on a daily basis.
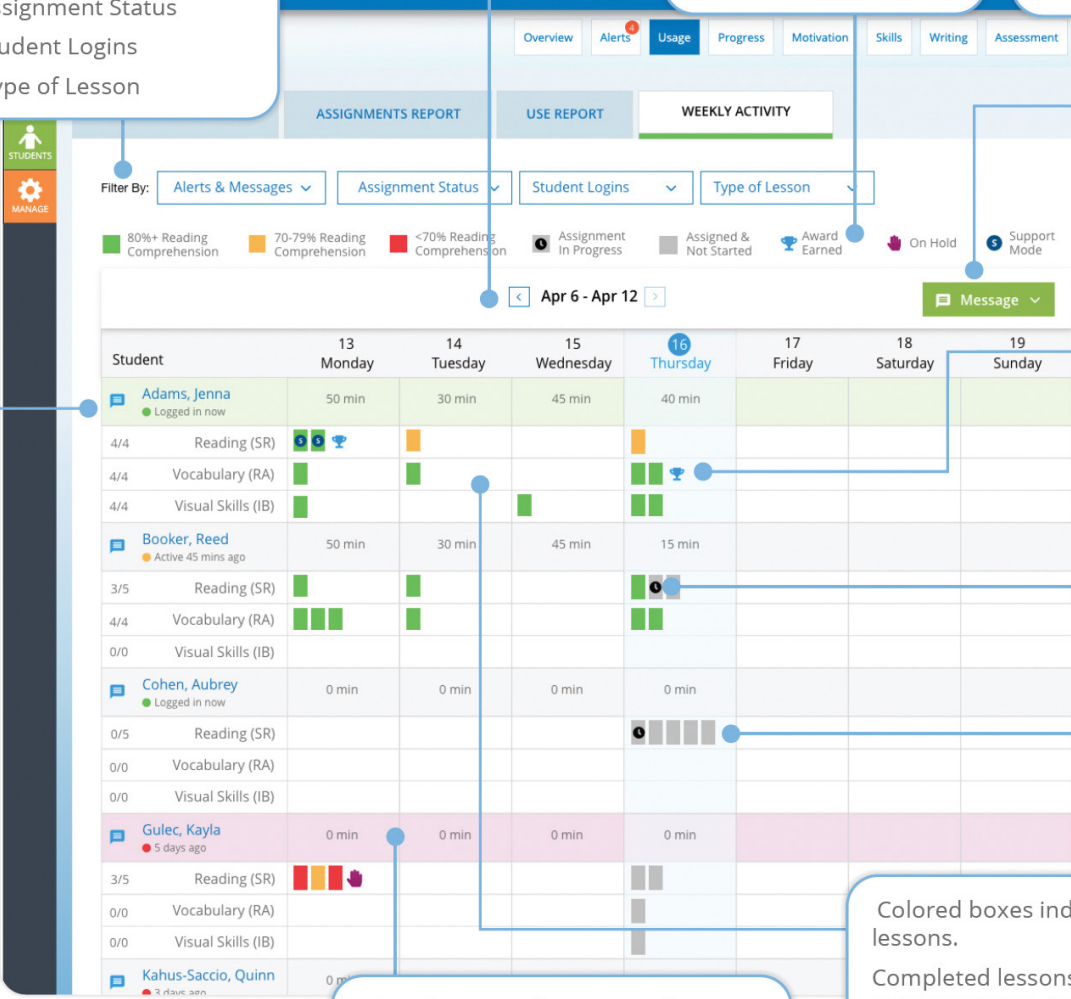

Refine your view by using filters. You can filter by:
- Type of Alert or message
- Assignment Status
- Student Logins
- Type of Lesson

Click the back arrow to review data from a previous week.

Use the legend to assist with interpretation with data on the Real-Time screen.

Use the *Message* button to message students directly from the screen.

Identify students with a Level Award. Print the award and celebrate!

A clock icon indicates that a student is currently in progress with an assignment.

Gray boxes indicate weekly assignments not yet started.

Colored boxes indicate completed lessons.

Completed lessons in the Reading component are color-coded based on comprehension score:
- Green = 80%+ comprehension
- Yellow = 70-79%
- Red = < 70%

Identify any student currently On Hold in the Reading component. Remember that students cannot work in the Reading component until you release the Hold from the Alerts Panel.

Identify which students are logged in now, as well as when any non-active student last logged in.
