

Site Screening Report

REPORT OVERVIEW

The **Site Screening Report** displays which students can benefit from Reading Plus as an intervention, students who are proficient but can benefit from Reading Plus as enrichment, and the students who are either Borderline or Not Ready for fluency/efficiency development in the Reading component.

Analyse quadrant placement to identify students' profiles as readers:

- Students in the red quadrant are inefficient, relatively slow readers who do not yet demonstrate the ability to read and comprehend grade-level text.
- Students in the orange quadrant have higher levels of fluency and efficiency, but they do not yet demonstrate the ability to read and comprehend grade-level text.
- Students in the yellow quadrant can read and comprehend content at or above grade level, but they would benefit from fluency and efficiency development.
- Students in the green quadrant are already proficient and efficient readers and can benefit from Reading Plus as enrichment.

? Questionable Results: Student scored notably low compared to previous InSight assessment.
Consider reassigning the initial assessment.

Rate measures are reported only for students who scored 80% or higher comprehension on at least one assessment passage and who demonstrated a consistent reading rate across passages.

Rates are not reported for students whose comprehension on all passages was below 80%, or for students who did not read at a consistent rate across passages.

Use the color-coded symbols to identify students who are either Not Ready or Borderline-ready for the Reading component.

- Not Ready:** Student did not demonstrate mastery of 1st-grade level reading passages and 1st-grade level vocabulary during initial assessment.
 - A Not Ready student who is known to have foundational reading skills may not have put forth best effort during assessment.
- Borderline:** Student scored notably low in comprehension and/or vocabulary.
 - Student will be placed in the Reading component on the lowest level (Pre-A; early 1st-grade complexity) in order to strengthen comprehension skills and build stamina.
