Class Use Report
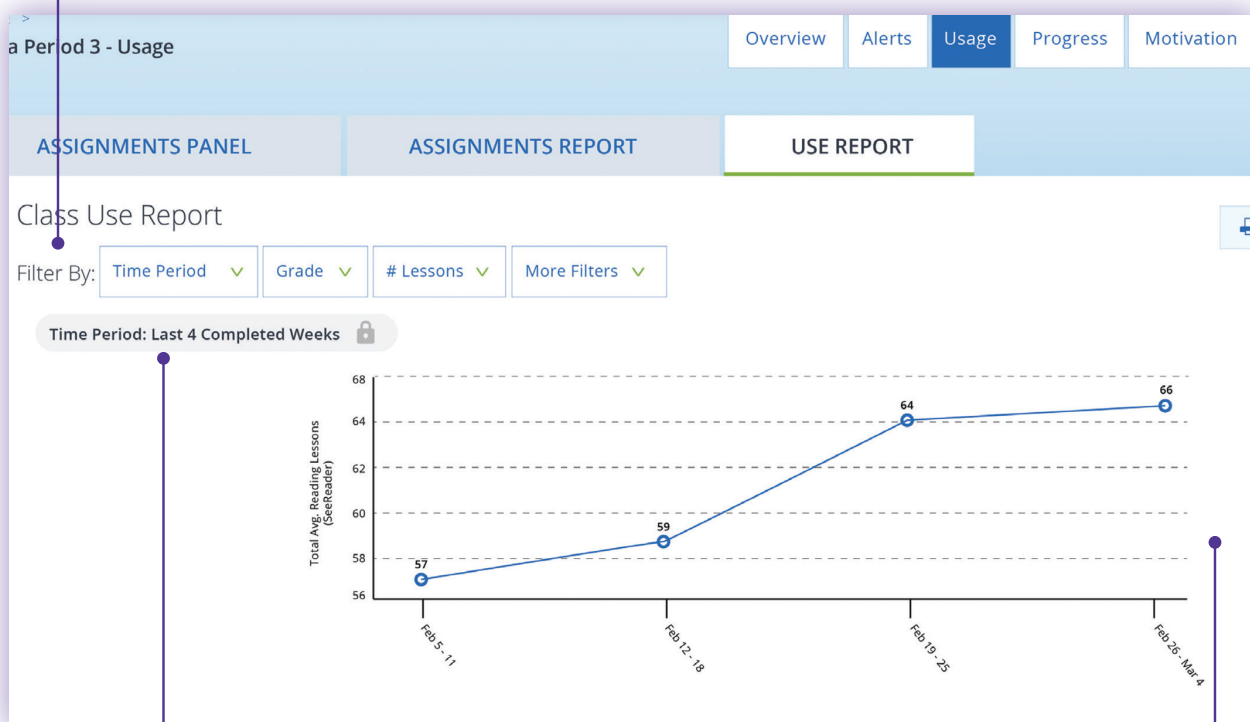

The Class Use Report makes it easy to ensure students are completing their weekly reading lessons. The more reading lessons a student completes, the better the results. Ensure that students' average completed lessons and average weekly minutes align with the general use recommendations for various subgroups.

Use the filter buttons to view data for specific time periods and/or subgroups.

By default, the time period for the report is set to the last four completed weeks.

The chart shows the average number of reading lessons per student completed to date. Notice increases in the average from week to week.

Class Use Report

The Class Use Report makes it easy to ensure students are completing their weekly reading lessons. The more reading lessons a student completes, the better the results. Ensure that students' average completed lessons and average weekly minutes align with the general use recommendations for various subgroups.

Notice each student's most recent login date.

View the average number of weekly minutes spent in each of the instructional components.

Notice the average number of Reading lessons completed each week.

View the percentage of reading assignments completed with 80% or higher comprehension.

Note: Students must earn 80%+ on reading assignments to make progress in Reading Plus.

Student	Last Student Login	Visual Skills (iB) Avg Time/Week	Vocabulary (RA) Avg Time/Week	Reading (SR) Avg Time/Week	Reading (SR) Avg Lessons/Week	% Reading Assignments Completed	% Reading Assignments Completed 80%+	Projected End Use (Reading Lessons)	End Date

View the percentage of reading assignments completed, relative to the number of reading lessons assigned. Percentages greater than 100% indicate extra reading lessons completed.

- View the number of reading lessons each student is likely to complete by the end of the implementation period.

- Projected End Use values are based on the class' End Date.

- If End Date does not reflect the actual end date of your implementation period you can adjust the End Date in Settings.

Colour-coding makes it easier to evaluate reading assignment completion during the defined time period.

- Low Use (<40% of assigned reading lessons completed)

- Moderate Use (40 - 59% of assigned reading lessons completed)

- Good Use (60 - 79% of assigned reading lessons completed)

- Very Good Use (>=80% of assigned reading lessons completed)
